

Fig. 1

Fig. 4 is a cross-sectional view of a mechanical assembly, likely a valve or actuator, showing internal components and a handle mechanism. The assembly includes a main body (16) with a central shaft (18) and a handle (70) connected via a linkage (74). The handle is shown in two positions: a closed position (dashed line) and an open position (solid line). The assembly is mounted on a base (54) and includes various seals, O-rings, and internal components labeled with reference numerals.
